MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. MACROECONOMIC OVERVIEW – INDIAN ECONOMIC ENVIRONMENT

The Indian economy has seen major improvement in the past few months on several fronts under the leadership of Prime Minister Narendra Modi. Since May 2014, the government has taken significant measures to revive both the growth cycle and investor sentiment. Some of the major initiatives include Foreign Direct Investment (FDI) in railways and defence sectors, followed by labour reforms, complete deregulation of diesel prices and easing of FDI rules in construction.

Further, the government has adopted progressive policies for, inter-alia, coal sector reforms, increase in the FDI cap in insurance sector from 26 per cent to 49 per cent, auction of mines of iron and other minerals. Moving ahead on its reforms agenda, the government has also inched closer to its aim of rolling out the Goods and Service Tax (GST) from April 2016. Several other initiatives of the government, including efforts to revive stalled projects, re-schedule of premium payouts for road ventures and relaxation of environmental clearances have also alleviated some sector-specific concerns. The government has also launched 'Make in India' and 'Skill India' campaigns to attract investments and create a global manufacturing hub in the country.

B. INDUSTRY OVERVIEW

Construction activity creates physical assets in a number of sectors of the economy. Construction sector has two key segments: (i) Buildings, falling into one of the following categories: residential, commercial, industrial and institutional; and (ii) Infrastructure such as road, rail, ports, dams, canals, airports, power systems, telecommunication systems, urban infrastructure including urban transport, water supply, sewerage, and drainage and rural infrastructure. Assets once created also need to be maintained. Many upstream and downstream economic activities depend upon the construction sector.

Construction accounts for nearly 60–80 per cent of the project cost of roads and housing and a significant portion in case of other infrastructure sectors. Construction materials such as cement and steel, bricks and tiles, sands and aggregates, fixtures and fittings, paints and chemicals, fuel, petro-products, timber, aluminium, glass and plastics account for nearly two third of the construction costs. The forward and backward multiplier impact of the construction industry is significant. The growth in construction sector in GDP has primarily been on account of increased spending on physical infrastructure in the last few years through programmes such as National Highway Development (NHDP) and Pradhan Mantri Gram Sadak Yojna (PMGSY)/Bharat Nirman.

India's construction sector is forecast to grow at 7-8 per cent each year over the next decade. With the new government, the country is expected to see increased economic growth and the removal of barriers to foreign investment that will increase demand for construction. It is estimated that \$1 trillion would be spent on infrastructure over the next three years to 2017 by the government.

Infrastructure sector have been impacted due to challenging bidding process, higher raw material expenses and leveraged Balance sheet. Further, Land acquisition issues, delay in obtaining Environmental and forest clearance, fuel supply to power plants and lack of financing alternatives, the growth prospects of the sector are hindered. However, the new government has chosen the path of infrastructure development to achieve long term sustainable economic growth and has provided a lot of measurement to fuel infrastructure development which will help infra and construction companies to bag new orders.

C. SECTOR OVERVIEW:

Several factors still continue to act as strong drivers for long term sustainable real estate demand like Latent demand for homes, Continued economic growth, Trend towards nuclear families, Young working population, Rising disposable incomes, Increased urbanization, Inherent desire to own a home etc.

Inflation, Higher interest rates, High risk weight-age for loans to companies operating in the sector, Non-availability of low cost working capital, Employment growth, Time lag during the approval process while launching a project,

Higher statutory levies, Nonavailability of skilled manpower, Uncertainty of title continue to remain as challenges being faced by the Sector as a whole.

The employment generated in the construction and real estate sector is immense and it is, in fact, the second largest employer in the country. The development of the real estate and construction industry can also be directly linked to the development of approximately 256 different industries like cement, steel, building materials etc. It is, therefore, imperative that impetus should be provided to the construction and real estate sector so that overall economic development can be achieved.

Infrastructure investment has traditionally been associated with public sector monopolies largely due to high cost of implementation. However, the sector is experiencing an exemplary shift, as the government is taking measures to encourage private investment on PPP (Public Private Partnership) model. This should make the infrastructure sector economically vibrant and Competitive

The positive sentiments prevailing post new government are motivating the economy to perform better and push the limits but it may take a few months before the growth in the real estate industry is actually visible. As long as the government's action plans focus on a progressive economy, we believe that the industry operations will revive in the coming few quarters. We hope that the government will focus on policies that will reduce the burden on real estate builders by accelerating the approval process, reducing the interest costs and taxes levied and controlling the trending inflationary pressures.

As per the 12th FYP midterm appraisal, the overall private sector investment share is likely to be 36% during the Plan period. Further, according to the 12th FYP midterm appraisal, infrastructure investment is likely to close to 8% of the GDP which is consistently below the original target of 9% which is requirement to sustain 8-9% GDP growth.

Though the housing shortage continues to be high in the country and especially in rural areas, it is expected that the demand for housing and home loans in urban areas will continue to rise faster as a result of the increased urbanization in the country. Not only have the metro cities witnessed rising population but even Tier I and Tier II cities have been experiencing similar trends of increasing population and demand for housing. With investments flowing into urban infrastructure, this trend can only intensify in the times to come. The demand for housing will therefore continue to grow in the medium to long term.

D. STRENGTHS & OPPORTUNITIES:

Investment envisaged for the next Five Year Plan (2012- 17), India's infrastructure investment is bound to grow significantly. To maintain its growth momentum, the provision of adequate infrastructural facilities is critical. Unreliable services or a disruption in infrastructure facilities may restrict output or hinder investments in productive capital. Moreover, infrastructural investment of about USD 1,025 Billion is necessary during the Twelfth Five Year Plan (2012-17) to achieve a share of 9.95% as a proportion of GDP. Government of India is attempting to improve the country's infrastructure as a top policy priority.

The infrastructure and construction market in India is particularly affected in an atmosphere of lack of complete inertia in new project development and execution. Issues like environment clearances and financial difficulties for large developers have led to very little new opportunities in terms of infrastructure related development.

Housing Demand

The gap between the demand and supply of housing continues to be of great opportunity for Infrastructure companies. Investment in housing is a prioritized item on the national agenda as it contributes in the country's GDP growth, directly and indirectly.

The average age of a new homeowner is now 32 years compared with 45 years a decade ago.

Your Company expects demand from the mid income residential segment to remain strong as we believe there is significant demand in this category across the country. Increasing disposable incomes, rapid urbanization and strong demographics are some of the trends favouring the mid-income residential.

Real Estate Reforms

In order to realize the long-term growth potential of the sector, there is a growing need to introduce reforms. Year 2015-2016 has witnessed various measures initiated by the Indian Government to revive growth in the real estate sector, which if executed correctly, will encourage transparency, corporate governance and investment and improve the industry's long-term prospects. It is our hope that various regulations also incorporate provisions to address challenges the sector currently faces in terms of receiving project Approvals.

E. RISKS AND CONCERNS:

Risk is a multi-facet concept. In the context of construction industry, it could be the likelihood of the occurrence of a definite event/factor or combination of events/factors which occur during the whole process of construction to the detriment of the project a lack of predictability about structure outcome or consequences in a decision or planning situation, the uncertainty associated with estimates of outcomes – there is a chance that results could be better than expected as well as worse than expected etc. In addition to the different definitions of risk, there are various ways for categorizing risk for different purposes too. Some categorize risks in construction projects broadly into external risks and internal risks while others classify risk in more detailed categories of political risk, financial risk, market risk, intellectual property risk, social risk, safety risk, etc. The typology of the risks seems to depend mainly upon whether the project is local (domestic) or international. The internal risks are relevant to all projects irrespective of whether they are local or international. International projects tend to be subjected to the external risk such as unawareness of the social conditions, economic and political scenarios, unknown and new procedural formalities, regulatory framework and governing authority, etc. Risk is inherent and difficult to deal with, and this requires a proper management framework both of theoretical and practical meanings. Significant improvement to construction project management performance may be achieved from adopting the process of risk assessment. The types of exposure to risk that an organization is faced with are wide-ranging and vary from one organization to another. These exposures could be the risk of business failure, the risk of project financial losses, the occurrences of major construction accidents, default of business associates and dispute and organization risks. It is desirable to understand and identify the risks as early as possible, so that suitable strategy can be implemented to retain particular risks or to transfer them to minimize any likely negative aspect they may have. The risk management process begins with the initial identification of the relevant and potential risks associated with the construction project. It is of considerable importance since the process of risk analysis and response management may only be performed on identified potential risks. Risk analysis and evaluation is the intermediate process between risk identification and management. It incorporates uncertainty in a quantitative and qualitative manner to evaluate the potential impact of risk. The evaluation should generally concentrate on risks with high probabilities, high financial consequences or combinations thereof which yield a substantial financial impact.

Once the risks of a project have been identified and analyzed, an appropriate method of treating risk must be adopted. Within a framework of risk management, contractors also should decide how to handle or treat each risk and formulate suitable risk treatment strategies or mitigation measures. These mitigation measures are generally based on the nature and potential consequences of the risk. The main objective is to remove as much as possible the potential impact and to increase the level of control of risk. More the control of one mitigation measure on one risk, the more effective the measure of risk the process of risk management does not aim to remove completely all risks from a project. Its objective is to develop an organized framework to assist decision makers to manage the risks, especially the critical ones, effectively and efficiently.

Risks can be viewed as business, technical, or operational. A technical risk is the inability to build the product that will satisfy requirements. An operational risk is the inability of the customer to work with core team members. Risks are either acceptable or unacceptable. An acceptable risk is one that negatively affects a task on the non-critical path. An unacceptable risk is one that negatively affects the critical path. Risks are either short or long term. A short-term risk has an immediate impact, such as changing the requirements for a deliverable. A long-term risk has an impact sometime in the distant future, such as releasing a product without adequate testing. Risks are viewed as either manageable or unmanageable. A manageable risk is one you can live with, such as a minor requirement change. An unmanageable risk is impossible to accommodate, such as a huge turnover of

core team members. Risk factors for this study are classified into eight categories namely.

- **Construction Risk**
- **Design Risk**
- **Environmental Risk**
- **Financial Risk**
- **Management Risk**
- **Political Risk**
- **Procurement Risk**
- **Sub-Contractors Risk**
- **Technology Risk.**

Construction Risk:

- Disputes between labours
- Changing sequences in construction activity
- Non availability of resources
- Revision of design
- Availability of camp for labours
- Change in quantities of work
- In Time work permissions for executing work
- Safety of workers
- Stoppage of work due to Medical outbreak

Design Risk:

- Late changes of design from client side
- Will the level of details of design delivered by the owner affect over all construction time?
- Improper specifications
- Inadequate and incomplete design

Environmental Risk:

- Impact of weather condition on completion of project
- Pollution by construction waste
- Procedure to facilitate construction waste clean-up or disposal

Financial Risk:

- Delay from clients
- Increment for staff benefits
- Unprecedented price in raw materials

- Fluctuations in Estimated finance than expected

Management Risk:

- Documents and process directed as per agreement for mitigation of risk
- Project team discussions on risk
- Use of WBS and project milestones to help identify project risks
- Time for planning • Loosing of critical staff at crucial point of construction
- Documented process for identifying project risks

Political Risk:

- Pressure from any political party
- Local bodies (political/rowdies) compelling to use their resources
- Union Issue

Procurement Risk:

- Temporary demand of increase in price of materials
- Specialized labour for fixation/Installation
- Is there a chance of procurement team to know the sales chart of client?

Sub-Contractors Risk:

- Chances of sub-contractor walk out
- Delay in work execution of sub-contractor
- Revision of price

Technology Risk:

- Knowledge on equipment's
- Service for damaged equipment's
- Loss of data or software/hardware of computer

The construction companies need to include risk as an integral part of their project management. Decision making such as risk assessment in construction projects is very important in the construction management. The identification and assessment of project risk are the critical procedures for projecting success.

F INTERNAL CONTROL SYSTEM & THEIR ADEQUACY:

The Company has an internal control system, which provides protection to all its assets against loss from unauthorised use and for correct reporting of transactions. The internal control systems are further supplemented by internal audit carried out by an independent firm of Chartered Accountants and periodical review by the management. The company has put in place Proper controls, which are reviewed at regular intervals to ensure that transactions are properly authorized & correctly reported and assets are safeguarded. The Audit Committee of the Board addresses issues raised by both the Internal and Statutory Auditors. The internal control systems are implemented to safeguard the Company's assets from loss or damage. To keep constant check on cost structure and to provide adequate financial and accounting controls and implement accounting standards.

In addition to above, Purohit Construction Limited has formulated a Vigil Mechanism (Whistle Blower Policy) for its Directors and Employees of the Company for reporting genuine concern about unethical practices and suspected mal-practices.

G. HUMAN RESOURCES DEVELOPMENT:

In construction industry, a project mainly focuses on two things, one is optimum utilization of resources and the other is speedy completion of project. In line to this trend, construction industry has seen Human Resource Management as a primary entity for every company.

Human Resource Management is managing organizational workforce. The biggest problem that the industry confronts is the acute shortage of skilled and trained manpower. Getting skilled and trained workforce these days has become an uphill task. There is wastage of about 7-10% of the construction material due to the lack of skills in workmanship. Thus the main task for the industry is to withhold the skilled workforce till the project gets completed.

For a construction industry, employees are an organisation's most valuable asset. However, people also represent the most difficult resource for organisations to manage. Unlike physical assets, people have their own individual needs which must be met and idiosyncrasies which must be managed if they are to contribute to organisational growth and development. People are individuals who bring their own perspectives, values and attributes to organisational life, and, when managed effectively, these human traits can bring considerable benefits to organisations. However, when managed poorly they have the potential to severely limit organisational growth and threaten the viability of a business.

Purohit Construction Limited ensures that the project has sufficient human resources, with the correct skill sets and experience, for the project to be successfully completed.

H. STATUTORY COMPLIANCE:

The Company has complied with all the statutory requirements. A declaration regarding compliance of the provisions of the various statutes is also made by the Managing Director at each Board Meeting. The Company ensures compliance of the ROC, SEBI Regulations and provisions of the Listing Agreement.

I. FORWARD LOOKING STATEMENTS:

This communication contains statements that constitute 'forward looking statements' including, without limitation, statements relating to the implementation of strategic initiatives and other statements relating to our future business developments and economic performance. While these forward-looking statements represent the management's judgments and future expectations concerning the development of our business, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from our expectations.

ANNEXURE-I

NOMINATION REMUNERATION POLICY

In terms of section 178 of the companies act, 2013, this policy on nomination and remuneration of directors, key managerial personnel, senior management and other employees of the company has been formulated by the nomination and remuneration committee of the company and approved by the board of directors.

I. The following matters of provisions of the companies act, 2013 have been included and considered while formulating the remuneration policy for the company.

- (a) Criteria determining the qualifications, positive attributes and independence of a Director.
- (b) Appointment and removal of Directors, Key Managerial Personnel, Senior Management.
- (c) Remuneration for the Directors, Key Managerial Personnel, Senior Management and other employees.
- (d) Evaluation of performance of the Directors of the Company.
- (e) Scope and Role of the Nomination and Remuneration Committee
- (f) Disclosures in the Directors' Report

II. OBJECTIVE:

- (A) The key objective of this policy is to enable a framework that allows attracting and retaining competitive and skilled human resource in the company and for competitive and fair rewards for the achievement of key deliverables and also aligns with practice in the industry and shareholders' expectations. This policy reviews the compensation package payable to the executive and non-executive directors, key management personnel, the senior management and other employees of the company.
- (B) When deciding remuneration, the committee will consider the market scenario, business performance of the company and the remuneration practices in industry.

III. Criteria determining the qualifications, positive attributes and independence of a director and policy for appointment and removal:

(A) Independent directors

1. Qualifications of independent director:-

An independent director shall possess appropriate skills, experience and knowledge in one or more fields of finance, law, management, sales, marketing, administration, research, corporate governance, operations or other disciplines related to the company's business.

2. Positive attributes of independent directors:-

An independent director shall be a person of integrity, who possesses relevant expertise and experience and who shall uphold ethical standards of integrity and probity; act objectively and constructively; exercise his responsibilities in a bona-fide manner in the interest of the company; devote sufficient time and attention to his professional obligations for informed and balanced decision making; and assist the company in implementing the best corporate governance practices.

3. Independence of independent directors:-

An independent director should meet the requirements of section 149, schedule iv of the companies act, 2013.

(B) Other directors and senior management

1. the committee shall identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as director or at senior management level and recommend to the board his/her appointment.
2. a person should possess adequate qualification, expertise and experience for the position he/she is considered for appointment. The committee has discretion to decide whether qualification, expertise and experience possessed by a person is sufficient/satisfactory for the concerned position.

3. the company shall not appoint or continue the employment of any person as whole-time director who has attained the age of seventy years. Provided that the term of the person holding this position may be extended beyond the age of seventy years with the approval of shareholders by passing a special resolution based on the explanatory statement annexed to the notice for such motion indicating the justification for extension of appointment beyond seventy years.

Moreover any person appointed shall not continue in the company if the evaluation of his performance is not satisfactory to the nomination and remuneration committee.

(C) Rationale for remuneration framework

1. **Internal ratios:** the compensation package for employees at levels lower than executive directors should be revised in the form of performance increments, structural improvements and cost of living adjustments at regular intervals. This will lead to a compressing of the compensation differential between the lowest and highest levels of executive management.
2. **Compliance & risk parameters:** in view of company law regulations, the compliance roles of executive directors far outweigh that of any other level, and consequently the risk parameters associated with these jobs are of a significantly higher level as compared to the junior levels and accordingly the remuneration should be paid.

IV. Remuneration pattern:

A) Executive directors:

- (1) Structure: a summary of the structure set is as mentioned below:

Components	Item	Description	Policy
Base salary	reflects the person's experience, criticality of the role with the company and the risk factor involved	- consolidated salary fixed for each financial year - this component is also used for paying retiral benefits - paid on a monthly basis	Normally positioned as the highest as compared to the other components.
Short-term incentive	based totally on the performance of the director	- variable component of the remuneration package - paid on an annually basis	Determined by the nomination and remuneration Committee after year-end based on the evaluation of performance against the pre-determined financial and non-financial metrics.
Long-term incentive	drive and reward delivery of sustained long-term performance	variable long-term remuneration component.	Determined by the nomination and remuneration committee and distributed on the basis of time, level and performance.
Retiral benefits	provide for sustained contribution	accrues depending on length on service.	Paid post separation from the company as per the rules of the provident fund and gratuity acts.

B) Key management personnel and senior management and other employees:

1. "senior management" shall mean the personnel of the company who are members of its core management team excluding the board of directors including functional heads.
2. the remuneration package of the key management and senior management and other employees comprises of:
 - **Fixed remuneration:** this includes a monthly salary such as consolidated pay, variable house rent allowance,

compensatory allowance, utility allowance, interest subsidy on housing loans;

- **Annual allowances:** this consists of leave travel allowance, medical reimbursement and house maintenance allowance.
- **Retrials:** this includes provident fund, gratuity and superannuation, if any.

C) Non-executive directors:

The board is responsible for setting policy in relation to the non-executive directors' fees and reviews them periodically. General policy is to provide fees in line with market practice for similar non-executive director roles in the comparable corporate and institutions in India. Fees paid to the non-executive directors also take account of the company's complexity, the significant travel and time commitments required for attending board and other meetings in India and the risk profile of the company. The remuneration to the non-executive directors should be determined as per the provisions of the companies act, 2013 and related rules framed there under. However the nomination and remuneration committee may from time to time suggest the payment and revision in the same as and when necessary.

D) Remuneration mix:

The total remuneration package is designed to provide an appropriate balance between fixed and variable components with focus on performance related pay so that strong performance is incentivized but without encouraging excessive risk taking.

E) Scope and role of the nomination and remuneration committee ('the committee'):

The committee, in addition to the responsibilities specified as per companies act, 2013, would play a pivotal role in ensuring the governance as follows:

- I. Recommend to the board a policy, relating to the remuneration for the directors, key managerial personnel (kmp) and other employees.
- II. The nomination and remuneration committee shall while formulating the remuneration policy ensure that:
 - A) The level and composition of remuneration is reasonable and sufficient to attract, retain and motivate directors of the quality required to run the company successfully.
 - B) Relationship of remuneration to performance is clear and meets appropriate performance benchmarks.
 - C) Remuneration to directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

INDEPENDENT AUDITOR'S REPORT

To the Members of

PUROHIT CONSTRUCTION LIMITED**Report on the Financial Statements**

We have audited the accompanying financial statements of **Purohit Construction Ltd.**, Ahmedabad, which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss and Cash Flow Statement for the year then ended on that date and a summary of significant accounting policies along with other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act. and the Rules framed there under. We conducted our audit in accordance with the Standards issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements and Management representation. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements and Management representation in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Director's, as well as evaluating the overall presentation of the financial statements.

Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, there are no loans, guarantees, and securities granted in respect of which provisions of Section 185 and 186 of the Companies Act 2013 are applicable and hence not commented upon. Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to information and explanations given by the management, the Company has complied with provisions of Section 186 of the Companies Act 2013 in respect of investments made during the year.
- (v) The Company has not accepted any deposits from the public.
- (vi) According to the information and explanation given to us, the Company is not required to maintain cost records as prescribed under sub section (1) of section 148 of Companies Act, 2013.

- (vii) (a) The Company is generally regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, wealth-tax, service tax, customs duty, excise duty, value added tax, cess and other material statutory dues applicable to it and According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, sales-tax, wealth-tax, service tax, customs duty, excise duty, value added tax, cess and other material statutory dues were outstanding at the year end, for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, no amounts payable in respect of income tax, wealth tax, sales tax, custom duty, excise duty and cess were unpaid on account of any dispute, except the following under income tax:

Sr. No.	Assessment Year	Authority of Appeal	Statute of Demand	Date of Filing of Appeal	Rs. In Lacs
1	2010-11	CIT Appeal-9, Ahmedabad	Section 271(1)(c)	06/04/2015	50.68

- (viii) Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to information and explanations given by the management, we are of the opinion that the Company has not defaulted in repayment of dues to any bank. Further, the Company does not have any debentures and loan repayable on term taken from financial institution or government.
- (ix) Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, the Company has not raised any money by way of initial public offer / further public offer / debt instruments and term loans and hence, reporting under clause 3 (ix) is not applicable to the Company and hence not commented upon.
- (x) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud on or by the officers and employees of the Company has been noticed or reported during the year.
- (xi) Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that the managerial remuneration has been paid / provided in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Companies Act, 2013.

PUROHIT CONSTRUCTION LIMITED**25TH ANNUAL REPORT 2015-2016**

- (xii) In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the Order are not applicable to the Company and hence not commented upon.
- (xiii) Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, transactions with the related parties are in compliance with Section 177 and 188 of Companies Act, 2013 to the extent applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us and on an overall examination of the balance sheet, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review hence the provisions of Clause 3(xiv) of the Order are not applicable to the Company and hence not commented upon.
- (xv) Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him. Hence the provisions of Clause 3(xv) of the Order are not applicable to the Company and hence not commented upon.
- (xvi) According to the information and explanations given to us the company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934 and accordingly the provisions of Clause 3(xvi) of the Order are not applicable to the Company and hence not commented upon.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF PUROHIT CONSTRUCTION LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the Members of Purohit Construction Limited

We have audited the internal financial controls over financial reporting of Purohit Construction Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial control system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override the controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
